ERS EDUCATIONAL RESEARCH GRANT 2014

Dear Dr Davidescu,

On behalf of ERS Education, it is our pleasure to inform you that your application for an ERS Educational Research Grant has been selected and approved by the ERS Executive Committee on the conditions mentioned below.

The Education Council discussed the wish to support your application provided that the following conditions are met:

- The application needs to be modified to focus more on the European perspective.
- ERS ultrasonography specialists will be appointed to work as assessors for the project.

We remind you that a preliminary report is expected after 6 months and a second report within one year. You are encouraged to write an article for submission to the ERS's educational journal, *Breathe*, or another appropriate peer-reviewed journal. The educational materials, courses or services that are created within the project need to become available for ERS members through the ERS educational website. The created content remains your property as the grant recipient, with a non-exclusive usage right for ERS. This ERS Educational Research Grant support should be acknowledged in any publication or presentation.

We wish you success in your project.

Yours sincerely,

Gernot Rohde  
ERS Education Council Chair
